

SAN ANTONIO

TEEN PREGNANCY PREVENTION COLLABORATIVE

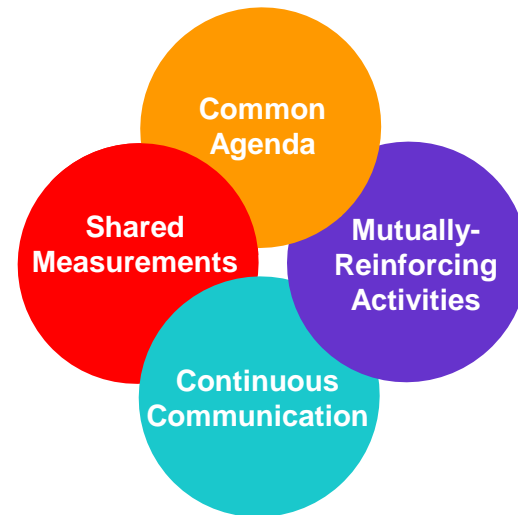

2020 Goal: Reduce the Teen Birth Rate among females ages 15 to 19 in San Antonio by 50%.*

The collaborative consists of several organizations collaborating in **Five** areas:

- 1 Stakeholder Education
- 2 Evidence-Based Programs
- 3 Youth Support & Development
- 4 Community Mobilization
- 5 Quality Adolescent Health Care

In FY 2015-2016, The collaborative reached over 10,000 teens with evidence-based teen pregnancy prevention programs.

The collaborative follows the **Collective Impact Model**.
